THE FRAGRANCE

Safrose

A Spicy Floral Signature

Safrose is the signature composition from Nffadh, a French fragrance house with its heart in Paris and its presence in Dubai. It is a perfume written for the woman or man who wants to be remembered — not by being the loudest scent in the room, but by leaving behind a trail that is impossible to forget.

Discover Safrose at nffadh.com/en/product/safrose — the full collection is available online and in select boutiques across the United Arab Emirates.

The Character of the Scent

Safrose opens with a burst of saffron and pink pepper — spicy, golden, warm. The heart unfolds into a bouquet of Damask rose and jasmine absolute, softened by a touch of iris. The base settles into amber, sandalwood, and a whisper of oud — the kind of oud a French perfumer chooses, not the kind that overwhelms but the kind that anchors.

It is a composition that sits precisely where French perfumery and Middle Eastern olfactory tradition meet. As a **luxury Dubai perfume** with French craftsmanship at its core, Safrose answers a question the market has been asking for years: what happens when Parisian precision meets the olfactory culture of the Gulf?

Notes at a Glance

Top Notes	Heart Notes	Base Notes
Saffron	*Damask Rose*	*Amber*
Pink Pepper	*Jasmine Absolute*	*Sandalwood*
Bergamot	*Iris*	*Oud*
Cardamom	*Orange Blossom*	*Musk*

THE HOUSE

Nffadh —
French Craft, Dubai Heart

Nffadh is a French perfume house operating from Dubai, bringing Parisian composition to the fragrance culture of the Gulf. Every Nffadh scent is formulated in France with the climate of the United Arab Emirates in mind — a rare combination that most European brands overlook and most regional brands cannot replicate.

What Makes It a French Perfume Dubai Choice

French perfumery tradition. Every composition is developed by French-trained perfumers using raw materials sourced from traditional European suppliers — Grasse rose, Calabrian bergamot, Mysore sandalwood analogues.

Climate-resilient formulation. The humidity and heat of Dubai change how a fragrance projects on skin. Nffadh formulations are adjusted for amplified sillage in humid conditions — the perfume performs the way it was designed to, year-round.

Niche concentration. Safrose is an Eau de Parfum at a concentration that sits between typical EDPs and extrait. This gives it the longevity expected of niche fragrance without the heaviness of pure parfum.

A House Built for a Specific Buyer

Nffadh is not trying to compete with designer perfume houses on volume. The house is built for the buyer who has outgrown mainstream fragrance, who recognises quality on the first spray, and who wants a signature scent rather than a crowd-pleaser.

The full collection is available at https://nffadh.com, with the signature Safrose composition showcased at nffadh.com/en/product/safrose.

> *"A French perfume written in Dubai's key — warm, golden, unmistakably signature."*

THE WEARER

Who Wears *Safrose*

Safrose is written for people who dress intentionally, travel well, and refuse to smell like everyone else. It suits evenings and occasions where being noticed — quietly — is the whole point. It also carries beautifully through a working day in Dubai's office towers, where climate control and long hours punish weaker compositions.

When Safrose Works Best

Occasion	Why Safrose Suits It
Evening events & weddings	The spicy-floral opening and warm base carry beautifully across long evenings.
Hot Dubai summers	Climate-adapted formulation holds its character in humidity where lighter florals fade.
Business & boardroom	Refined sillage — present enough to be remembered, never intrusive.
Cold-weather travel	Amber, sandalwood, and oud base anchors the scent even in dry European winters.
Signature daily wear	Unisex composition with enough complexity to evolve throughout the day.

A Note on Sillage

Sillage — the French word for the trail a perfume leaves behind — is where Safrose shows its craftsmanship. The composition is calibrated for **balanced sillage**: enough to announce a presence without overwhelming a room. On warm skin in humid climates, the trail lasts six to eight hours. In cooler climates, the heart and base notes become more prominent, revealing the complexity of the composition over time.

AVAILABILITY

Where to Find *Safrose*

Safrose is available directly from the Nffadh online boutique, with delivery across the United Arab Emirates, the wider GCC, and international shipping to select European and Asian markets. The product page includes full composition notes, bottle sizes, and customer reviews.
